

Where are we?

In **January 2023**, the **training for professionals** took place in **Budapest**.

Professionals from **the different countries** (Hungary, Belgium, Slovenia, Finland, Austria) got inspired by each other's work. We worked together for **5 days** on **different themes** and **explored** how a **professional** can be a leisure **co-facilitator**. For example the use of resources for leisure, the concept of befriending and working together with local informal supporters. **Differences** and **similarities** were discussed. **Tools** to support persons with disabilities in choosing their own leisure activities were also **examined**. We worked and brainstormed a lot during the days and in the evenings we took time to discover the different cultures.

What's next?

At the moment we are **finalizing** the first drafts of the **manuals** for professionals, local informal supporters and persons with learning disabilities.

Atempo is organising the training for persons with learning disabilities in **April** in **Graz**. Participants will be those who aim to be **'leisure facilitators'**, helping both their learning disabled peers access leisure facilities as well as also the wider community. We are looking forward to a week full of crossnational contacts, inspiration and learning opportunities.
